

SCANNER A6

A6 document and check color Scanner

Custom A6 Scanners guarantee high performance (400 mm/s) of front/back color scanning to support all applications with a resolution up to 300 dpi, along with the option of integrating with third party applications. It is supported by an MICR head for scanning CMC7 magnetic strips on international cheques and it has the smallest footprint in its class, which enables it to be used for access control systems. The main reference markets are: banking, industrial, aviation, railways, public transports, gaming, logistics and retail.
