Subject: Products Discontinuity

Dear Customer,

Aiming to continuous improvement and innovation of the products, we inform You that starting from today it's available the **new paper roll holder for VKP80III's targeted market.**

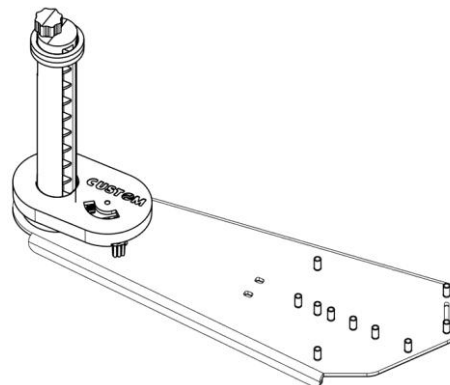

This holder can always be assembled both on the left and right side of the printer and now it's adjustable in 3 positions.

This innovation responds to the latest market trends according to which kiosks must be of increasingly small size and ultra-slim profile.

It is compatible with both versions, lateral and rear connectors.

The near paper end sensor kit is always included.

We kindly ask You to take note that the current paper roll holder is in phase out:
