N	Summary product description
4	VKP558 is an extremely compact and versatile ticket printer with panel mounting for easy installation. The device has a black plastic frame, highly reliable full/partial cutter and easily inspectable paper feed path. VKP558 has the same attachment points as TG02H, and features the same interfaces and emulations. The product comes with an easy-to-use paper roll bay, and is equipped with the new Centurion Security Suite, a dedicated software for the gaming market, designed to authenticate winning tickets and discard fake ones.

Reduced use of resources	Graphic symbol
The VKP558 model - unlike previous Custom models with equal market positioning - is equipped with Paper Saving Mode software, capable of reducing paper use by 30 percent, at the same time issuing tickets/receipts with the same amount of printed data. Paper Saving Mode does not affect printing of the Header and Images sections on the ticket, which remain unchanged.
